*Questions you should ask your financial professional.*

*Given my financial situation, should I choose an investment advisory service? Why or why not?*

*How will you choose investments to recommend to me?*

*What is your relevant experience, including your licenses, education and other qualifications? What do these qualifications mean?*

**Item 3. Fees, Costs, Conflicts, and Standard of Conduct**

*What fees will I pay?*

**Principal Fees and Costs:** You will pay an on-going negotiable **asset-based fee** of 0.65% to 1.65% at the end of the monthly or quarter for our services, based on the value of the cash and investments in your advisory account. The more assets there are in your advisory account, the more you will pay in fees, and the firm may therefore have an incentive to encourage you to increase the assets in your account. Our negotiable **hourly fee** for financial planning ranges between \$125 and \$350 per hour. Our negotiable **flat fee** range of \$500 to \$5,000 per financial plan. Our **ongoing fee** for financial planning has a maximum annual fee of \$2,500 billed monthly, quarterly, bi-annually or annually.

**Other Fees and Costs:** You are responsible for all custodial and securities broker-dealer execution fees charged by the custodian and executing broker-dealer. Our asset-based fee is separate and distinct from the custodian and broker-dealer execution fees. Some investments (such as mutual funds) impose additional fees that will reduce the value of your investment over time.

**Additional Information:** *You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying. Refer to our Form ADV Part 2A Brochure, Item 5.A.B.C.D. for more detailed information about our fees.*

*Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me? What are your legal obligations to me when acting as my investment advisor? How else does your firm make money and what conflicts of interest do you have?*

#### **B. Standard of Conduct**

*When we act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here are some examples to help you understand what this means.*

**Potential Conflicts:** The more assets there are in your advisory account, the more you will pay in fees, and the firm may therefore have an incentive to encourage you to increase the assets in your account.

SAA Advisors are licensed to sell insurance products to you. They may receive compensation as a commission for that sale and this creates a conflict of interest. All costs associated with the insurance product will be disclosed to you prior to the sale. You always have the right to choose any firm or insurance agent to purchase insurance products.

*How might your conflicts of interest affect me, and how will you address them?*

**Additional Information:** Other than what has been stated above concerning insurance licensed individuals, we do not have any relationships or arrangements with any other entity.

*How do your financial professionals make money?*

We are paid by the asset-based fee that is charged to your investment account. The more assets you have in your advisory account, including cash, the more you will pay us. We therefore have an incentive to increase the assets in your account in order to increase our fees. We are also compensated by ongoing, hourly and flat fees and we do not receive commissions from the sale of insurance products to you
