Professional Designations

Certified Fund Specialist[®] (CFS[®]): The Institute of Business & Finance developed the CFS designation in 1988 — the fourth-oldest designation in the U.S. — to fill a serious gap in the professional practice of certified financial planners. In this intermediate-to-advanced course, you develop a strong working knowledge of the following:

- Mutual funds, ETF, and REITs
- Closed-end funds and similar investments
- Advanced fund analysis and selection
- Asset allocation and portfolio construction
- Sophisticated investment strategies that top financial advisors use on a daily basis for risk management, taxes, and estate planning.

Accredited Investment Fiduciary[®] (AIF[®]): The professional designations awarded by fi360[®] demonstrate the focus on all the components of a comprehensive investment process, related fiduciary standards of care, and commitment to excellence. AIF designees undergo an initial training program and are required to complete annual continuing education. Such designees also pledge to abide by the fi360 Code of Ethics.

Those who earn the AIF designation successfully complete a specialized program on investment fiduciary standards of care and pass a comprehensive examination. AIF designees demonstrate a thorough understanding of fi360's Prudent Practices for investment advisors and stewards.

Upon successful completion of the program, participants are able to:

- Articulate the basis for, and benefits of, fiduciary standards of excellence according to fi360.
- Identify when an individual or organization may be deemed to have fiduciary status.
- Identify the legal standards that require fiduciaries to prudently manage investment decisions.
- Apply the practices that define a prudent investment process for investment stewards and advisors and recognize the practices for investment managers.
- Strengthen own or clients' fiduciary policies and procedures.
